Annual session 1995
5-16 June 1995, New York
Item 6 of the provisional agenda
UNDP

ANNUAL REPORT OF THE ADMINISTRATOR AND RELATED MATTERS

Addendum

Subcontracts awarded and major equipment ordered in 1994

The Administrator is pleased to make available to the Executive Board the attached report based on data received from the Inter-Agency Procurement Services Office.

In previous years, this information was provided to the Executive Board in the form of addenda to the annual report of the Administrator, i.e., subcontracts awarded and major equipment ordered. To avoid duplication of effort and to ensure rapid dissemination of the information to the Board, the present report combines these two addenda.

The main purpose of the report is to provide details on equipment ordered and subcontracts awarded in 1994. The columns entitled 'Headquarters and name of contractor' and 'Location and name of supplier' are intended to indicate only the country in which the subcontractor and supplier of equipment is located. In an increasingly globalized world, it is clear that the nationality of the subcontractor or supplier is not necessarily the same as the country of location. For this reason, the value of equipment ordered or subcontract placed in a given country cannot be taken as indicating the amount of investment in that country.

MAJOR EQUIPMENT ORDERED DURING 1994 a/

Location and name of supplier	Cost of order (Dollars)	Executing agency	Description of equipment
ANGOLA			
HULL, BLYTH AND COMPANY	52 256	UN/DDSMS	Processing units for EDP and accessories and spare parts

a/ "Major equipment" refers to individual purchase orders of $30,000 or more; this amount includes actual cost of the equipment, freight, insurance and other related cost. The data in this table refer to expenditure financed under indicative planning figures, Special Programme Resources, Special Measures Fund for Least Developed Countries, Special Industrial Services and cost-sharing.

b/ Wherever the term "local purchase" occurs, it refers to purchases made locally in the identified country by the Resident Representative on behalf of the project.

a/ Unlike previous years, the table on subcontracts includes contracts awarded in 1994 as well as net additions to contracts awarded in previous years. As a result, the total value of subcontracts, $121 825 141, is approximately the same as that in table 8 of document DP/1995/30/Add.2. The difference is due to rounding off.

Note, also, that this summary table groups subcontracts according to the United Nations Common Coding System (UNCCS) for professional services and not according to sectors, as in previous years.

b/ Headquarters of contractor ranked in descending order of total cost of subcontracts.

SUBCONTRACTS AWARDED IN 1994

Headquarters and name of Contractor	Amount of contract (Dollars)	Executing agency	Focus area of subcontracts
